New User?

Take a quick tour to learn how things are organized and how to best use HOMEFRONTConnections to work with your team.

HOMEFRONTConnections was established to provide a social networking environment for those who are in the military, in a military family or who support the military and their families.

HOMEFRONTConnections provides a password protected location to meet online. Within the site, groups (or *Communities*, as we call them) can share best practices, post pictures and videos, or just talk about the work they are doing with others who are also supporting our service members and their families..

This is also a place where family members can meet each other, or establish family readiness groups on-line. Information is not shared with marketers, nor will commercial groups advertise here.

If you would like to establish a *Community* for your organization, please contact the Webmaster.
